

RILEY TOWNSHIP - ST. CLAIR COUNTY

ARTICLE IX
GENERAL PROVISIONS

SECTION 917. HAZARDOUS MATERIALS:

All businesses and facilities which use, store, or generate hazardous substances in quantities greater than 100 kilograms per month (equal to approximately 25 gallons or 220 pounds) shall comply with the following requirements:

A. Aboveground Storage:

1. Primary containment of hazardous substances shall be product-tight.
2. Secondary containment of hazardous substances shall be provided for all facilities. Secondary containment shall be sufficient to store the substance for the maximum anticipated period of time necessary for the operator to recover any released substance.
3. Outdoor storage of hazardous substances is hereby prohibited except in product-tight containers which are protected from weather, leakage, accidental damage, and vandalism. Secondary containment shall be sufficient to store the substance for the maximum anticipated period of time necessary for the operator to recover any released substance, including an allowance for the expected accumulation of precipitation.
4. At a minimum, State of Michigan and Federal agency requirements for storage, leak detection, recordkeeping, spill prevention, emergency response, transport, and disposal shall be met.

B. Underground Storage:

1. Existing and new underground storage tanks shall be registered with the governing government agency (P.H. 6/13/2011; Adopted 10/4/2011; Published 10/13/2011) in accordance with Federal and State requirements.
2. Installation, operation, and maintenance of underground tanks shall be in accordance with the requirements of the Fire Department, the Michigan State Police, Fire Marshall Division, and the Michigan Department of Natural Resources.
3. Out-of-service and/or abandoned underground tanks shall be emptied and removed from the ground if they have been out-of-service for more than nine (9) months, unless an extension is approved by the Township Board, after consultation with the Fire Chief.
